FUTILE ATTEMPT TO

END SHELTON STRIKE 1. W. W. Agitator Urges Workers Not to Accept Employers' Offer.

Derby, Conn., Jan. 21.—The latest effort to end the strike of weavers employed at the Sidney Blumenthal mills in Shelton, proved unfruitful tonight when a mass meeting of the strikers was held in Gould armory, to listen to and discuss a proposition made by Mayor Sullivan. The armory was packed to the doors and the meet livan, who has been in consultation with the mill authorities, urged the strikers to accept a compromise offer made by Mr. Blumenthal. In brief, the compromise offer would take back some of the strikers now, and the re-mainder in twelve days; the fifty-five hour law would be enforced and there would be no reduction in pay. The pay hereafter would be made weekly

After the gathering, Mayor Sullivan said his position in the strike from now on would remain neutral.

Best Treatment for All Complexion Ills

(From Woman's Tribune.)

I'll tell you my panacea for all complexion troubles. If the skin be colorless, sailow, muddy, over-red, if it be rough, chapped, blotchy, or pimply, there's nothing that will so surely overcome the condition as ordinary mercolized wax. The wax literally takes off a bad complexion—ansorbs the dead and hear-dead particles of surface skin, so gently, gradually, you experience no inconvenience at all. A new complexion is then in evidence, one so clear, spotless, delicately soft and beautiful, you look many years younger. One ounce of this wax, procurable at any drug store, will rejuvenate even the worst complexion. It is smeared on like cold cream before retiring and removed mernings with warm water. The mercolized wax habit is a healthier and more economical one than the cosmette habit.

If the skin be wrinklied or creased, bathe it daily in a solution made by dissolyting an ounce of powdered saxolite in a haif pint witch hazel. This nots immediately, affecting even the deepest wrinkles.—Elsie Desmond. A dairy cow in good condition should product not less than 1,400 pounds of milk yearly. He gave figures of the fixed cost of keeping a cow one year. The expense incurred, as givetn by
